Technical specifications:
TS888/999 / TX888/999

Display and control elements	round LEDs (green, yellow, red) for status of charging function rectangular LEDs (green, red) for status of display test illuminated LCD full graphics display with 3 buttons on the G888/G999
Power supply	12VDC / 500mA via jack socket or 5VDC / 100mA via USB connection
Gas	
Connections:	1 test gas input, 1 gas output (for hose di≈5mm)
Flow rate:	0,5...0,6 l/min
Time	
Function test:	20 to 30 s (je nach Einstellung und Prüfgaskonzentration)
Data	
Storage medium:	microSD Card (formatted with FAT or FAT16 file system
Communication:	mini USB
Housing	
Material:	Plastic
Dimensions:	90 x 120 x 160 mm (W x H x D)
Weight:	300g
Protection class:	IP20
