

Data Download Software Upgrade for G450 & G460 Gas Detectors

The software posted on this page is for upgrade purposes only. Prior to upgrade a previous version of the G450/G460 data download software must be installed from an original CD-ROM. This includes the installation of GfG custom USB drivers for the data download cable.

Download the G450/G460 data download software file by clicking on the file name below and save it to the same folder that the original software was installed (usually "C:\Program Files\GfG\DDS") and overwrite to old file.

Note: *Depending on the computer configuration an administrative log-in may be required.*
